Testimonial to the work by Vanni Rehabilitation

Children's Hunger Relief Fund-UK, is a registered charity in England, (Reg. No 1138753). It was founded soon after the war ended in Srilanka in 2009, with a view to help the children affected by the war by giving milk, food and clothing

But over the years, we gradually expanded our service by encouraging the widows, disabled and visually handicapped people in the remote villages to do self-earning projects with a view to make them self-sufficient. This resulted in constructing over 800 wells in the Vanni district helping them with their cultivation and livelihood projects such as poultry and rearing livestock.

I am very pleased to say that, we have carried out a number of projects in partnership with Vanni Rehabilitation in the North of Sri Lanka. Vanni Rehabilitation was represented by one volunteer who was always willing to partner on projects to assist needy and vulnerable on education, health and livelihood to enhance their lives.

This charity operates without any over heads and one volunteer spends his own money for all the expenses incurred in relation to his charity work. I can confirm his integrity and he is very transparent with his financial accountability.

We had the opportunity to spend few days in Sri Lanka in April 2016. Although at times it was more than 40-degree C, living roughly, he travels around by motor bike to the remote villages, carrying out necessary assessment by meeting the families and likeminded organisation and without wasting any time, he will spend all his time helping the needy people and does charity work with full of heart, commitment and dedication.

Children's Hunger Relief Fund UK

He has been a tremendous partner to work with. We have known him over four years and we share information and work together for the betterment of the war victims. He goes to Sri Lanka three or four times a year visits the needy people (mainly disabled people and widows with children) in every nook and corner, to assess their needs and help them according to their ability. He also monitors the progress of the projects and helps them until they have successfully started earning an income to look after their family.

I can recommend to anyone considering the funding request by Vanni Rehabilitation and assure that 100% of the funds will be spent diligently and the benefits will reach people who desperately need them.

Any questions please do not hesitate to contact me.

Thanking you

Dr.M. Kaneshanathan
Chairman CHRF-UK
